Professional Summary

Tech Support Professional with 3+ years of experience in configuring and maintaining network devices, IT infrastructure. Skilled in Active Directory, Group Policy, Microsoft 365, VPNs, VLANs, and firewall management. Experienced in troubleshooting hardware/software issues, network monitoring. Strong problem-solving and communication skills, delivering efficient and secure IT support.

Skills

- **Operating Systems:** Windows 10/11, Windows Server, macOS, Ubuntu, Red Hat, CentOS, Kali Linux
- **Networking & Security:** IP Configuration, DHCP, DNS, Subnetting, LAN/WAN, VLANs, Inter-VLAN Routing, VPN (Site-to-Site & Remote), Switches, Routers, Wireless LAN Controllers, Access Points, Firewall Configuration, Port Forwarding, ACLs, STP, EtherChannel, Port Security, IPv4/IPv6, Network Monitoring & Reporting (Wireshark, IP Scanners), Network Troubleshooting (ping, tracert, ipconfig)
- **System & Server Administration:** Active Directory (User & Group Management, OU Management, GPO, Password Reset, Lock/Unlock, Join Computers to Domain), Microsoft 365 Admin Center, Intune, Exchange Admin Center, SharePoint Admin Center, SCCM, Printer & FTP Server Configuration.
- **Datacenter management:** VMWare esxi, VMware vcenter, Veeam, NAS, SAN, Disaster recovery.
- **Hardware:** Laptops, Desktops repair.
- **Remote Support Tools:** AnyDesk, TeamViewer, RDP.
- **Command Line & Scripting:** Windows CMD, PowerShell, Bash, Linux Shell Scripting.
- **Full Stack Web Development:** MERN Stack (MongoDB, Express.js, React, Node.js), HTML, CSS, Tailwind, SASS, JavaScript, JQuery, PHP, Next.js, REST APIs, SQL.
- **DevOps & Cloud:** Docker, Kubernetes, Ansible, Jenkins, AWS, Netlify, Vercel, Git & GitHub
- **Data Analysis & BI:** ETL Process, NumPy, Pandas, Matplotlib, Seaborn, Excel, Power BI, MySQL
- **Programming Languages:** C, C++, Java, Python, JavaScript, PHP

Professional Experience

Desktop Support Engineer

Company: Thoughtsol Infotech Pvt Ltd.

Location: Bengaluru, India.

Duration: 2025– Present

- Work with network switches, routers, access points, diagnosed and resolved IP configuration and connectivity issues.
- Configure and managed VLANs, trunk ports to ensure proper network segmentation and performance.
- Monitored network performance and resolved latency, packet loss, and connectivity issues.
- Manage Intune-enrolled laptops and desktops, ensuring compliance with organizational policies and configurations.
- Managed daily tasks using Microsoft 365 Admin Center as Helpdesk Admin.
- Provided end-user support including driver installations, software setup, and hardware/software troubleshooting.

Technical Support Engineer

Company: Ansec HR Pvt Ltd

Location: Bengaluru, India.

Duration: 2022– 2025

- Troubleshot network switches, routers, IP cameras, NVRs, wireless access points, and wired LAN connections; diagnosed and resolved IP configuration and connectivity issues.
- Configured and managed VLANs, trunk ports to ensure proper network segmentation and performance.

- Performed network troubleshooting using tools such as ping, tracert, ipconfig.
- Monitored network performance and resolved latency, packet loss, and connectivity issues.
- Managed firmware upgrades and preventive maintenance for networking devices.
- Managed domain-joined systems.
- Audited non-domain joined desktops to ensure compliance with organizational security policies and configuration standards.
- Generated network reports for specific time periods using Wireshark and IP scanning tools to monitor device activity and connectivity.

PROJECTS

1. **Disk Health and Usage Monitoring Script (Bash)**
   - Developed a Bash script to automate disk health monitoring using SMART status checks and disk usage alerts, including email notifications and logging for proactive system maintenance.
   - **GitHub**: https://github.com/JoydeepPaul399/diskMonitoring.git

2. **Full Stack E-Commerce Web App – MERN Stack**
   - A full-stack e-commerce platform inspired by Blinkit with user and admin roles.
   - Implemented product browsing, cart, order placement, search product and user authentication.
   - Developed admin panel to manage products, categories, and subcategories.
   - Used MongoDB, Express.js, React.js, Node.js, and JWT for secure APIs.
   - **Live Demo**: https://blinkit-full-stack-1dpz.vercel.app
   - **GitHub**: https://github.com/JoydeepPaul399/Full-Stack-E-Commerce-web-app

3. **Real-Time Chatting Web App - MERN Stack**
   - A real-time chat application built with Node.js, Express.js, Socket.io, and MongoDB that features user authentication and live messaging.
   - Implemented user registration and login for secure access using JWT.
   - Enabled real-time messaging between users using Socket.io.
   - Added profile update functionality to enhance user personalization.
   - **Live Demo**: https://chatting-web-app-9eyz.vercel.app/
   - **GitHub**: https://github.com/JoydeepPaul399/Chatting-Web-App.git

4. **Hotel Booking Cancellations(Using Excel):**
   - This project analyzes hotel booking data to understand cancellation patterns. It explores who is cancelling more frequently—families, couples, or single travelers. Additionally, it identifies the locations with the highest number of hotels and highlights where cancellations are most common. The project also examines the time periods when cancellations are most likely to occur.
   - **GitHub**: https://github.com/JoydeepPaul399/Hotel-Booking-Cancellations.git
   -

5. **Reliance Sales Report(Using PowerBI):**
   - This project presents a sales report for Reliance covering the period from 1997 to 1998. It includes a breakdown of transactions by state and provides insights into revenue distribution across different regions.
   - **GitHub**: https://github.com/JoydeepPaul399/Reliance-Sales-Report.git

Certification

- Full Stack Web Developer by 30 Days Coding Challenge (Completed: 2024).

Education

Bachelor of Computer Applications (BCA)

Amity University Online, Noida, India

Graduated: 2025

Higher Secondary Certificate (12th) – Science
Fatikroy Higer Secondary School, Tripura, India
Graduated: 2020

Secondary Education (10th Grade)
Krishnanagar BM High School, Tripura, India
Graduated: 2018
